# Fascinating paper

**2 million tonnes a year capacity**

A high-speed photograph of a glass of water splashing, with several slices of lime floating in the water. The water is clear and the lime slices are bright green. The background is a light blue gradient.

# Hamburger Containerboard – high quality

Hamburger Containerboard is one of the leading producers of high-quality corrugating papers in Europe. These papers are manufactured exclusively from recycled paper.

It is our objective to offer all our customers and partners more than a complete range of high-quality containerboard. Thoughts and actions form the basis for successful and continuous development, and this ensures that our customers receive the best quality and service over the longer term.

Innovative process technology and a sustainable, ecological approach are major components of our corporate strategy.

„Flexibility – Commitment – Customer Focus“ are genuine values in our corporate culture, which enable our team to put our customers' wishes speedily and expertly into practice. Our brands of AustroLiner, RiegerLiner, Spree-White and SpreeGips are all well-known and established in Europe. Lightweight substances complete and enhance our product range.

Our long-term goal is to grow with our customers and our markets, and this is an integral part of our strategy.

# AustroTop

We produce advanced recycled containerboard to exceed customer expectations.

# Pitten
